## Model: 600REZCK

# **KOHLER**, Power Systems

480-600 V

Gas

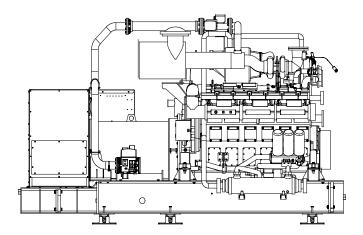

EPA-Certified for Stationary and Non-Emergency Applications

## **Ratings Range**

60 Hz

Continuous: kW 675

#### Standard Features

- Kohler Co. provides one-source responsibility for the generating system and accessories.
- The generator set and its components are prototype-tested, factory-built, and production-tested.
- A one-year or 8000 hr limited warranty covers all generator set systems and components. A two-year or 16,000 hr extended limited warranty is also available.
- The pilot-excited, permanent magnet (PM) alternator provides superior short-circuit capability.
- Baseload with the utility applications only.
- Transient load steps without the utility is not authorized.

## **Generator Set Rating**

### Lean-Burn Natural Gas 80°C Rise

## Continuous Rating kW Amps

| Alternator | Voltage | Ph | Hz | kW  | Amps |
|------------|---------|----|----|-----|------|
| 5M4038     | 277/480 | 3  | 60 | 675 | 812  |
| 5M4278     | 347/600 | 3  | 60 | 675 | 650  |

RATINGS: All three-phase units are rated at 1.0 power factor without pumps or fans. Ratings are in accordance with ISO-8528-1 and ISO-3046-1. Obtain technical information bulletin (TiB-101) for ratings guidelines, complete ratings definitions, and site condition derates. The generator set manufacturer reserves the right to change the design or specifications without notice and without any obligation or liability whatsoever.

## **Alternator Specifications**

| Specifications                           |                 | Alternator                                    |

| Rotor balancing                          |                 | 125%  |
| Unbalanced load c                        | apability       | 100% of Rated Current                         |
| Peak motor starting                      | g kVA :         | (35% dip for voltages below)                  |
| 480 V                                    | 5M4038 (4 lead) | 3050 (60Hz)                                   |
| 600 V                                    | 5M4278 (4 lead) | 3900 (60Hz)                                   |

- NEMA MG1, IEEE, and ANSI standards compliance for temperature rise and motor starting.
- Sustained short-circuit current of up to 300% of the rated current for up to 10 seconds.
- Sustained short-circuit current enabling downstream circuit breakers to trip without collapsing the alternator field.
- Self-ventilated and dripproof construction.
- Superior voltage waveform from a two-thirds pitch stator and skewed rotor.
- Digital solid-state, volts-per-hertz voltage regulator with ±0.25% no-load to full-load regulation.
- Brushless alternator with brushless pilot exciter for excellent load response.

#### Controller

#### Decision-Maker® 8000 Controller

Provides advanced control, system monitoring, and system diagnostics with remote monitoring capabilities for paralleling multiple generator sets.

- Large, color display with intuitive local data access
- Communication with serial (RS485) and Ethernet (RJ45)
- Stores up to 4000 records in Event History
- Data logging and trending for easy troubleshooting
- USB flash disk for file storage of data
- Integrated PLC programmable function for advanced input and output configuration
- Supports paralleling up to 32 generator sets (with paralleling option)
