

KOHLER. GENUINE OIL

for Generators

KOHLER. SAE 5W-30
100% Synthetic Engine Oil
Huile Moteur Synthétique à 100%

Advanced Technology for Gasoline and Gasoline-Fueled Generators | Technologie Avancée Pour Les Générateurs Electriques à Essence et à Carburant Gazéux
KOHLER COMMERCIAL ENGINE OIL SPECIFICATION: G-716 | KOHLER SPECIFICATIONS POUR HUILE À MOTEUR COMMERCIALE: G-716

WARNING: Contains additives that are harmful. Susceptible of damaging lubricity or the engine oil. Avoid to breathe the vapors with long lasting effects.

ATTENTION: Prévention des additifs nocifs. Susceptible de nuire à la lubrification du moteur. Évitez de respirer les vapeurs pendant une longue période.

CAUTION: Causes eye and skin irritation. Read cautions on back panel.

PRECAUTION: Causes eye and skin irritation. Read cautions on back panel.

SAFETY: Avoid contact with skin. Avoid contact with eyes. Avoid contact with clothing. Avoid contact with food. Avoid contact with children. Avoid contact with pets. Avoid contact with water. Avoid contact with fire. Avoid contact with electrical equipment. Avoid contact with machinery. Avoid contact with moving parts. Avoid contact with hot surfaces. Avoid contact with high voltage. Avoid contact with compressed air. Avoid contact with toxic substances. Avoid contact with flammable liquids. Avoid contact with oxidizing agents. Avoid contact with acids. Avoid contact with alkalis. Avoid contact with corrosive substances. Avoid contact with irritants. Avoid contact with sensitizers. Avoid contact with carcinogens. Avoid contact with mutagens. Avoid contact with reproductive toxins. Avoid contact with developmental toxins. Avoid contact with endocrine disruptors. Avoid contact with neurotoxins. Avoid contact with immunotoxicants. Avoid contact with organophosphates. Avoid contact with carbamates. Avoid contact with pyrethroids. Avoid contact with organochlorines. Avoid contact with organophosphates. Avoid contact with carbamates. Avoid contact with pyrethroids. Avoid contact with organochlorines.

SAFETY: Avoid contact with skin. Avoid contact with eyes. Avoid contact with clothing. Avoid contact with food. Avoid contact with children. Avoid contact with pets. Avoid contact with water. Avoid contact with fire. Avoid contact with electrical equipment. Avoid contact with machinery. Avoid contact with moving parts. Avoid contact with hot surfaces. Avoid contact with high voltage. Avoid contact with compressed air. Avoid contact with toxic substances. Avoid contact with flammable liquids. Avoid contact with oxidizing agents. Avoid contact with acids. Avoid contact with alkalis. Avoid contact with corrosive substances. Avoid contact with irritants. Avoid contact with sensitizers. Avoid contact with carcinogens. Avoid contact with mutagens. Avoid contact with reproductive toxins. Avoid contact with developmental toxins. Avoid contact with endocrine disruptors. Avoid contact with neurotoxins. Avoid contact with immunotoxicants. Avoid contact with organophosphates. Avoid contact with carbamates. Avoid contact with pyrethroids. Avoid contact with organochlorines.

Stock the Oil Engineered Specifically for Generators

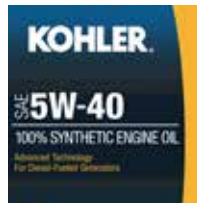

When your customers need their generators to run, there's no room for downtime. That's why the oil you stock matters. Engineered specifically for industrial, mobile, marine and home generator applications, KOHLER® genuine oils contain additives that help generators stay in optimal working condition—which can lower your customers' total cost of ownership. All KOHLER genuine oils are fully synthetic and engineered for longevity and durability.

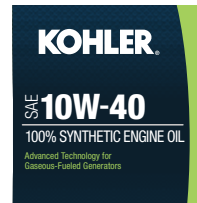

5W-30 FOR GASOLINE AND GASEOUS-FUELED GENERATORS

- Keeps engines clean for peak efficiency and reduced maintenance
- Provides all-season protection and excellent cold-flow properties for easier starts
- Withstands high heat reducing oil consumption and deposit formation
- Protects against wear to preserve engine power and lengthen equipment life

5W-40 FOR DIESEL-FUELED GENERATORS

- Excellent at resisting the thickening effects from oxidation and soot contamination
- Maintains viscosity for maximum engine protection and efficiency
- Excellent when used in both hot-operating engines and cold-weather starting extremes
- Minimizes oil consumption

10W-40 FOR GASEOUS-FUELED GENERATORS

- Designed specifically for gaseous-fueled engines with flat tappet lifters
- Boosted with zinc and phosphorus additives to provide exceptional wear control
- Works in broad temperature range reducing the need for seasonal oil changes
- Exceptional oxidation and nitration control, maintaining viscosity to deliver long-term wear protection

15W-40 FOR GASEOUS-FUELED GENERATORS

- Low-ash formulation for engines with roller lifters
- Minimizes deposits, extending spark-plug life and promoting efficient engine operation
- Exceptional oxidation and nitration control to maintain oil viscosity and help deliver long-term wear protection
- Prolongs the life of emissions catalyst system without sacrificing wear protection

Claims are compared with conventional base oils used in the same applications.

PACKAGING SIZES AND PART NUMBERS

Size	1 Quart/946 mL	1 Gallon/3.784 L	5 Gallons/18.93 L	55 Gallons/208.2 L	275 Gallons/1041 L
Oil Type	KOHLER Genuine Oil Part Number				
5W-30	GM103159	GM103160	GM103161	GM103162	GM103163
5W-40	GM103164	GM103165	GM103166	GM103167	GM103168
10W-40	GM105292	GM105293	GM105294	GM105295	GM105296
15W-40	GM103169	GM103170	GM103171	GM103172	GM103173
